Telephone Number: \_\_\_\_\_

Fire Hydrant Meter shall not be moved for any reason by the contractor. Contractor will not operate Fire Hydrant by opening or closing, but shall operate valve on meter itself. Non metered consumption, removal of the meter or tampering with the Fire Hydrant will not be allowed under any circumstances. Contractor is responsible for backflow assembly in good working condition or an air gap on trucks\containers. If any damages to said meter or fire hydrant are incurred while being used by myself or my company, I will reimburse the City of Huntsville in full for such damages.

I am requesting that the meter be installed on: \_\_\_\_\_

SERVICE AGREEMENT

1. PURPOSE. The CITY OF HUNTSVILLE is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution construction or configuration. The purpose of this service agreement is to notify each CUSTOMER of the restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each CUSTOMER must sign this agreement before the CITY OF HUNTSVILLE will begin service. In addition, when service to an existing connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.
2. RESTRICTIONS. The following unacceptable practices are prohibited by State regulations.
  - a. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an airgap or an appropriate backflow prevention device.
  - b. No cross-connection between public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
  - c. No connection which allows water to be returned to the public drinking water supply is permitted.
  - d. No pipe or pipe fitting which contains more than 0.25% lead may be used for the installation or repair of plumbing at any connection which provides water for human use. e. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
3. SERVICE AGREEMENT. The following are the terms of the service agreement between the CITY OF HUNTSVILLE and (CUSTOMER)
  - a. The CITY OF HUNTSVILLE will maintain a copy of this agreement as long as the CUSTOMER and/or the premises is connected to the CITY OF HUNTSVILLE water system.
  - b. The CUSTOMER shall allow his property to be inspected for possible cross-contamination and other potential contamination hazards. These inspections shall be conducted By the CITY OF HUNTSVILLE or its designated agent prior to initiating new water service; when there is reason to believe that cross connections or other potential contamination hazards exist; or after any major change to the private water distribution facilities. The inspections shall be conducted during the CITY OF HUNTSVILLE'S normal business hours.
  - c. The CITY OF HUNTSVILLE shall notify the CUSTOMER in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic reinspection.
  - d. The CUSTOMER shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his/her premises.
  - e. The CUSTOMER shall, at his expense, properly install, test, and maintain any backflow prevention device required by the CITY OF HUNTSVILLE. Copies of all testing and maintenance records shall be provided to the CITY OF HUNTSVILLE.
4. ENFORCEMENT. If the CUSTOMER fails to comply with the terms of the SERVICE AGREEMENT, the CITY OF HUNTSVILLE shall, at its option, terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the CUSTOMER.
