

KIT STORAGE LOCATIONS

Since you do not know where you will be when an emergency occurs, prepare supplies for home, work and vehicles.

HOME

Your disaster supplies kit should contain essential food, water and supplies for at least three days.

Keep this kit in a designated place and have it ready in case you have to leave your home quickly. Make sure all family members know where the kit is kept.

Additionally, you may want to consider having supplies for sheltering for up to two weeks.

WORK

You need to be prepared to shelter at work for at least 24 hours. Make sure you have food and water and other necessities like medicines in your kit. Also, be sure to have comfortable walking shoes at your workplace in case an evacuation requires walking long distances.

Your kit should also be in one container and ready to “grab and go” in case you are evacuated from your workplace.
