

Use this map to plan for solid waste collection!

Residential solid waste (garbage) collection service is provided once per week: either a Monday or Tuesday. Curbside recycling is also offered one day per week, depending on garbage recycling day.

For customers with a Monday garbage collection day, their curbside recycling day is on Thursday. For customers with a Tuesday garbage collection day, their curbside recycling day is on Friday. Use the map to the right to determine your solid waste schedule - for the light green and light blue area of the map, your pick-up days are Tuesday for garbage and Friday for recycling.

Garbage is to be placed in your GREEN cart, while recycling is to be placed in BLUE carts. Carts should be placed at the street's edge by 6 a.m.

Check updated press releases as well as the City Web site - www.huntsvilletx.gov - for holiday-related date changes and solid waste requirements, or call (936) 294-5712 for more information.

Monday - Garbage, Thursday - Recycling

Tuesday - Garbage, Friday - Recycling

- Mark your calendar for your days!
